

CHAPTER 52-03-10 OTHER REQUIREMENTS

Section

52-03-10-01	Test Equipment
52-03-10-02	Reflector Requirement
52-03-10-03	Identification Requirement

52-03-10-01. Test equipment. The test equipment shall be identical or equivalent to that specified in section 13 of the United States of American Standards Institute Standard 290.1-1966.

General Authority: NDCC 39-02-03

Law Implemented: NDCC 39-10.2-06

52-03-10-02. Reflector requirement. Each protective helmet approved by the director shall have a reflectorized surface or have securely affixed thereto reflectorized material on the left side, right side, and rear of the helmet. The reflectorization must cover an area of at least ten square inches [64.52 square centimeters] on the rear and ten square inches [64.52 square centimeters] on the right and ten square inches [64.52 square centimeters] on the left side of the helmet. If reflectorized material is attached to the helmet, it must be affixed with a suitable permanent weatherproof and water-resistant adhesive substance.

General Authority: NDCC 39-02-03

Law Implemented: NDCC 39-10.2-06

52-03-10-03. Identification requirement. Each helmet approved by the director shall be labeled on the outside of the helmet above the base of the rear of the helmet with letters or numbers at least one quarter inch [6.35 millimeters] in height with the manufacturer's trade name and model name or number, which shall be the same name or number under which the helmet is approved.

General Authority: NDCC 39-02-03

Law Implemented: NDCC 39-10.2-06
